

CN103808 Scope Of Works

GENERAL CONSTRUCTION CONTRACT FOR SOCIAL INVESTMENT PROJECTS

INTRODUCTION TO THE RUMAILA FIELD

The Rumaila field, located 50 kilometres west of Basra in Southern Iraq, is one of the largest oil fields in the world. The field is approximately 80km long by 20km wide and consists of two parts, South Rumaila and North Rumaila.

The Rumaila field is operated by an unincorporated joint venture called the Rumaila Operating Organisation (ROO), comprising the Basra Oil Company (BOC), BP, PetroChina and the State Oil Marketing Organisation (SOMO). bp and PetroChina have established Basra Energy Company Limited, an incorporated joint venture, to own and manage their interests in the Rumaila field in Iraq. Basra Energy acts as Lead Contractor and enters into all contractual arrangements required by the ROO.

The Rumaila Social Welfare Fund (SWF) was established by an instruction issued by the Iraqi Council of Ministries in 2013 to deliver Social Welfare Projects in the areas 'in and around' the oilfields. Since then, ROO has delivered several projects in its neighbouring communities with a view to fostering strong relationships with those communities.

Some of the communities in which projects will be delivered are rural Iraqi tribal communities and can be challenging environments to work in. Contractors must demonstrate experience in successfully delivering projects within rural Southern Iraqi communities and will preferably be able to provide client testimonials or references attesting to their competence, experience, and geographical and social knowledge.

SERVICES PROVIDED BY FIAFI

This Contract covers a range of construction services to deliver new infrastructure and services or to rehabilitate, repair or replace existing infrastructure and services in local communities. Projects are selected on an annual basis and are subject to government approvals on an annual basis and will therefore be managed by call-off orders against the contract. Works must be delivered to local government specifications which will be outlined in call-off orders.

Fiafi has sole responsibility for the following aspects of the WORK wherever applicable providing adequate PERSONNEL to perform the following project functions:

- Design, engineering and construction activities.
- Supervision, co-ordination.
- Procurement, materials management, materials handling, temporary storage and expediting activities.
- Planning and project controls activities. (e) HSSE compliance and management.
- Quality Assurance and Quality Control compliance and management. (g) Risk and opportunity management and activities.
- Interface management; and
- Industrial relations
